PROJECTS

ScriptLyra — Content Publishing & Blogging Platform Live
Next.js · React · TypeScript · Supabase · PostgreSQL

- Built a full-stack content publishing platform for creating, publishing, and discovering articles and long-form content.
- Implemented authentication, RLS-secured PostgreSQL tables, REST API integration, user management, and content access control.

Missed Class Recovery Engine — EdTech Automation GitHub

- React · Node.js · Python · PostgreSQL/MongoDB · n8n*
- Built an automated learning recovery system that detects missed sessions, extracts lecture content, and delivers AI-generated summaries.
 - Integrated databases, document processing, NLP, workflow automation, and email notifications into an end-to-end EdTech pipeline.

EXPERIENCE
